#### §220.1 Authority, purpose, and scope.

(a) *Authority and purpose.* Regulation T (this part) is issued by the Board of Governors of the Federal Reserve System (the Board) pursuant to the Securities Exchange Act of 1934 (the Act) (15 U.S.C. 78a *et seq.*). Its principal purpose is to regulate extensions of credit by and to brokers and dealers; it also covers related transactions within the Board's authority under the Act. It imposes, among other obligations, initial margin requirements and payment rules on securities transactions.

(b) *Scope.* (1) This part provides a margin account and eight special purpose accounts in which to record all financial relations between a customer and a creditor. Any transaction not specifically permitted in a special account shall be recorded in a margin account.

(2) This part does not preclude any exchange, national securities association, or creditor from imposing additional requirements or taking action for its own protection.

(3) This part does not apply to transactions between a customer and a broker or dealer registered only under section 15C of the Act.
